REVIEWS

"Bri has been a key part of our wholesale imports team as a product designer...

She has designed a wide variety of consumer products in the home decor and accessories categories - bags, tabletop, kitchen towels, ceramics, prints, jacquard's (and much more!). She has exhibited strong abilities in a wide range of artistic styles as needed to adapt to individual customer requirements and needs, not always an easy task! Bri joined our team at a very busy time and stepped in a learned the ropes quickly and made a difference right away. She has been a great asset to the team."

- **Kristin M. (VP of Design at Design Imports)**

"She is professional, creative, and effective creating designs and graphics that fulfill the 'over-the-top cute' feel of the app. I am already planning to work with her again on a business website for a client."
